Insurance: I understand that the title to this vehicle will be transferred to Communities Investing in Families, until final transfer of the title to the recipient is completed. Communities Investing in Families will maintain minimum liability coverage, and any mechanics providing routine repair and maintenance to donated vehicles will cover any and all liability during the time they are working on vehicles. In addition, I understand that any recipient of a donated vehicle will be required to provide proof of insurance before the title is transferred, and that the title will be transferred the same day the recipient receives the vehicle.

Intended use of vehicle: It is the intent of Communities Investing in Families to donate this vehicle directly to a family. However, in certain circumstances, CIF will sell a vehicle and use the proceeds to fund repairs to other vehicles. In that case, CIF will notify you in writing 30 days after the sale is completed. If a vehicle is donated directly to a family, you may claim fair market value of your vehicle as a tax deduction. If your vehicle is sold, the price of the sale will be the amount you can claim on your taxes. We recommend that you speak with a tax advisor about the implications of your donation on your taxes.

Tennessee Warning: If you intend to claim a tax deduction of \$500.00 or more, you must provide your social security number. As required by the IRS, CIF will report your donation. You do not need to provide this number if you do not intend to apply for a tax deduction or if the deduction is less than \$500.00. CIF will not use or disclose your social security number for any other purpose.

I have read and understand the previous statements, and hereby donate my vehicle to Communities Investing in Families in order to help low-income families become financially stable.
